 Pipe Travel Distance (on average).....66' 4"
 MAXIMUM ARBOR CAPACITY.....900 lbs
 Total stage counterweight available.....19,000 lbs

House Curtain can *travel* or *guillotine* open.

There is a rep. plot of soft goods hanging in the theatre at all times. They are there for use by traveling productions (*rental costs will be associated with use of the house goods*), but if they need to be removed prior to a show's load-in this will constitute a work call and be at an additional cost to the promoter.

- These items are not removed as part of a work call. Call in advance for costs to remove or move to another line set.
- Lineset #12 has no Picture Sheet during the off season of the movie series (September – May).
